The owner of medicine and health company Ltd. „HELONA“

First unit in Kaunas

Since 2011 unit in Utena

Website: www.helona.lt

- Medicine is an area that is never standing still. There are always new studies leading to new applications of the treatments and procedures.
- HELONA communicate with physicians, providing new service offerings and working with the latest medical techniques.
- HELONA has been successfully running for two years.
- At first only two people were working. Later, the company launched new cosmetic services, employing more persons.
- Currently, HELONA is expanding strongly, relocating to larger premises with an area of 100 square meters.
- New treatments and preventive programs for infants, children, pregnant women, as well as many other applications are being developed.
- At the moment the sales are being executed, marketing of orthopaedic appliances and medical products are being developed.
- It is planned that new services will be launched: physiotherapy, rehabilitation of injuries, therapeutic massage, and therapeutic rehabilitologist advice.
- The setting up of business was supported in seminars, consultations, made by business people, operating their own businesses for a long time.
- Future plans: to establish more medical centres in other Lithuania cities.
- Vision: private children's hospital and medical centre, which would provide the most complex operations and treatments.
- Foreseen, that the scientific research would be made in this centre to help heal people from diseases, that have not developed the treatment yet.
- Sales should be expanded to international level.
