The owners of  
Science and  
Technology  
Promotion Center

Established in 2009

Website: [www.technologijos.lt](http://www.technologijos.lt)

- Scope of the company - Science and Technology promotion, also various information services.
- Before starting company, there was observed a huge market need for online portal of science and technologies in Lithuanian language.
- At first 2 people were working, now – 4 persons.
- Two times won the Ministry of Education organized competition of activities in science popularization.
- Main activities: developing and making popular online portal [www.technologijos.lt](http://www.technologijos.lt), presentations in informative seminars, participating various environmental and educational events and projects.
- During recent two years, online portal [www.technologijos.lt](http://www.technologijos.lt):
  - Present up-to-date news of technologies;
  - Provide cognitive-advisory information;
  - Promote science;
  - Connect practical information and most recent achievements;
  - Analyse of Science and Technology development in all over the world;
  - Overview Science news;
  - Form broader view of horizon;

All these activities makes online portal as integral source of knowledge – old and new scientific and technological achievements encyclopedia.

- Business studies, helped to establish the knowledge acquired in various scientific fields: physics, chemistry, etc. Very useful field of Information Technology Skills.
- Future plans: to continue working in the same direction: promote technologies and science, while targeting wider scope of audience.
