Kamarád - Nenuda is a family center offering the freetime services for children, baby sitting and training concerning the children education.

- Before she started her own business she was looking for a part-time job, but found none in her field. She wanted to work with Children making trips, camps as she used to.
- Dotations did not offer any solutions. So she tried to work on her own.
- Thanks to help of her colleague Lutonská they created Kamarád-Nenuda center where can Parents and Children spend their leisure time and have fun or learn a lot.
- Since 2007 on voluntary basis without own space.
- Since 2010 co-owner of Kamarád-Nenuda center www.nenuda.eu
- Courses graduated and she says, that the training of communication and team collaboration helped her much. But she still needs to get better at accounting knowledge and the computer- how to make a simple flyer, how to forward an e-mail and so on.
- She hopes to make the situation of the center Kamarad - Nenuda stabile, the label known among the families in the region.
